Hello Sir/Madam,

Flexera has a requirement of 10-15 Freshers. Requesting you to kindly help us with the data with the number of students who are eligible and interested in our opportunity.

Job Title**Graduate Engineer – Associate Software Engineer****Job Location**

Bengaluru, Karnataka

Employment Type

Full-Time (On successful completion of selection process)

Job Description

We are looking for **highly motivated Engineering Graduates** with a strong foundation in **Computer Science fundamentals** to join our engineering team. The selected candidates will work closely with experienced engineers and gain hands-on exposure to real-world software development, testing, and engineering practices in a collaborative environment.

Key Responsibilities

- Learn and apply core software engineering concepts under guidance
- Participate in design, development, testing, and debugging of applications
- Write clean, maintainable, and efficient code
- Collaborate with cross-functional teams such as QA, Product, and Support
- Participate in code reviews, team discussions, and agile ceremonies
- Continuously improve technical skills and domain knowledge

Eligibility Criteria

- **Education:**
 - B.E / B.Tech in **Computer Science, Information Science, IT, AI/ML, Data Science**, or related Computer Science background (No MCAs)
- **Academic Performance:**
 - **Minimum 7.5 CGPA or above** (throughout academics)
- **Backlogs:**
 - **No active backlogs** at the time of selection
- **Year of Passing:**

- Final-year engineering students / fresh graduates(2026) with completing their Internship by August 2026.
-

Required Skills & Competencies

- Strong understanding of **Computer Science fundamentals**
 - Data Structures & Algorithms
 - Object-Oriented Programming concepts
 - Basic knowledge of **anyone programming language** such as:
 - Java / Python / C / C++ / .NET (or similar)
 - Good analytical and problem-solving skills
 - Willingness to learn new technologies and tools
 - Good communication and teamwork skills
-

Selection Process

- Online Test / Technical Assessment
 - Technical Interview(s) and Group Discussion
 - HR Discussion
-

Additional Information

- Candidates must be **willing to work from office** as per business requirements
- Final selection is subject to verification of academic records

With regards,
Dr. Unnikrishnan M.
